### Superintendent's Highlights

The new Mill Creek Primary School opened in time for the start of the 1997-98 school year. This school houses the preschool, kindergarten, and grades 1 and 2.

Scoring on the Statewide Competency Tests continues to improve especially in reading and writing. Ongoing performance assessment is occurring in many areas of the curriculum especially the Reading Renaissance program at Heights Elementary. The Middleton Middle School is well into its reorganization which places a great deal of emphasis on integration and cooperation. High School students gained the highest math scores on the American High School Math examine for A2 schools statewide.

The district is in the third year of strategic planning. The vehicle now driving that planning is the Management of Change process sponsored by J. A. and K. Albertson Foundation. Over 900 students, patrons, parents, and staff participated in the community forums.

Technology continued to be a district wide focus with the acquisition of grants enabling the use of video conferencing extensive research hardware and software, and technology related materials for science K to 12.

### Progress Towards Meeting District Goals

#### 1997-98 Goals

#### Progress

Prepared to learn upon entering school for the first time.

The district is proud of the Mini Vikes Program, which is monthly meeting of 4 year olds and their parents. This program helps parents and students better understand the learning process and orient to the school environment. The Special Education Preschool Regular Kindergarten and close coordination with Head Start further enhance each child's opportunity to be ready for first grade.

Student Conduct

All schools in the district have school-wide discipline programs. Comprehensive training was provided for each classroom teacher to develop their own philosophy and plan.

Integrate the use of Technology into all curriculum areas

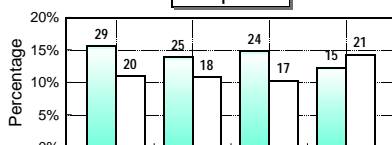

The Reading Renaissance Program has give hundreds of students the chance to develop their reading skills at their individual ability level. Kindergarten through grade six will be developing an extensive Math Program through Goals 2000 funds. The Middle School and the High School have developed two excellent Computer Learning Labs.
